INTERNATIONAL SCIENTIFIC AND PRACTICABLE CONFERENCE
«NEFTEGAZ–INTECHECO–2008»

ABOUT CONFERENCE

International scientific and practicable conference «NEFTEGAZ–INTECHECO–2008» will be held on November 25-26, 2008 in Moscow.

«NEFTEGAZ–INTECHECO–2008» is aimed at solving current problems in oil and gas industry in the field of introduction of new technologies and equipment, improvement of economical efficiency and ecological safety of production.

The reports to be presented at the Conference will broach issues on ecology and gas cleaning, modern electrostatic precipitators, cyclones, fabric filters, water treatment units, new technologies and equipment for enhancing total efficiency of metallurgical production, on expertise of industrial safety and anticorrosion protection of building structures and constructions, on improvement of control quality, up-to-date achievements in information technologies, control and automation means, optimization of support services.

The conference program is drawn up with regard to expectative business communication of heads, leading specialists and experts of government institutions, engineering companies and plants and facilities of oil and gas industry, oil&gas processing and petrochemical industries.

SPONSORS:

JSC «FINGO», JSC Unit Mark Pro , CJSC «IRIMEX»,

INFORMATION PARTNERS

CONFERENCE PARTICIPANTS

About 100 representatives of companies from Russia, Kazakhstan, Ukraine and Byelorussia are going to participate in the Conference: heads of companies, chief engineers, chief process engineers and power engineers, superintendents, division managers, engineers responsible for reconstruction, ecology and capital construction.

GEOGRAPHY OF CONFERENCE PARTICIPANTS

The previous Conferences was attended by representatives of companies from Russia, USA, Canada, Great Britain, the Netherlands, Germany, Czech Republic, Denmark, Finland, Poland, Ukraine, Byelorussia, Turkmenistan and Kazakhstan. Among them are: oil refineries and gas processing plants TNK-BP, NK Lukoil, Rosneft, Jacobs (the Netherlands), NIOGAZ, Metso Automation (Finland), Porcher industries (France), Sandvik (Sweden), Artvik (USA), VNIIGAS, Merichem (USA), Astrakhangasprom, Industrial Ceramics (Canada), Duiker (the Netherlands), Biprokwas (Poland), Inwatec (Poland), Angarsk Petrochemical Company, Saratov Refinery, Orenburgasprom, Surgutgasprom, BWF (Germany), Jurby Watertech (Great Britain), FLSmidth (Denmark), AQUACOMP Hard (Czech Republic), Core Carbon (Denmark), Tyco Fire & Building Products (USA), Imatek (Belarus) and other leading Russian and foreign companies.

More than 80 delegates have already confirmed participation, among them are: Gazprom, TNK-BP, Lukoil, FINGO, IRIMEX, VNIUS, Lukoil-Permnefteorgsintez, Global Carbon (Denmark), SICK Maihak (Germany), SULZER (Switzerland), Irimex Kazakhstan, Irelyahneft, Testo Rus, NPP VMP, Neftechimmash, Astrakhan gas processing plant, Giprotyumenneftegaz etc.

CONFERENCE TOPICS:

ECOLOGICAL ENGINEERING, GAS CLEANING AND WATER TREATMENT

- Impact of Industrial Enterprises on Environment. The Ways of Minimizing Harmful Emissions.
- Complex design of systems for clearing hydrocarbon gases and effluent gases from acid components [H₂S, CO₂, RSH (mercaptans), HF, SO₂, HCl].
- The Latest Achievements of Russian and Foreign Companies in Treatment of Hydrocarbon Containing Gases.
- Experience in Revamp and Construction of New Sulfur Recovery Units at Plants and Refineries in Russia and the CIS Countries.
- Modern Equipment of Sulfuric Acid Production.
- Recovery of Harmful Components into End Products, Sulfur Granulation Lines.
- Modern Technologies and Equipment for Treatment of Return and Waste Water. Closed Water Systems.
- Water Purification and Treatment of Process Solutions for Oil Refining and Gas Complexes.
- Modern Filtering Clothes for Gas and Water Cleaning Systems.

INNOVATIVE SOLUTIONS FOR OIL AND GAS INDUSTRY. MODERN PROCESS EQUIPMENT AND AUXILIARIES

- Problems of Russian Chemical, Oil and Gas Industries Development.
- Innovative Solutions: Processes and Equipment.
- Current issues of reconstruction and production efficiency enhancement in order to attain up-to-date technological level. Assessing the efficiency of investments into new technologies, advantages and disadvantages of their implementation at specific objects.
- The Latest Achievements of Russian and Foreign Companies in combustion systems for different processes, modern incinerators;
- Modern activated carbons and catalysts;
- Innovation solutions in automation of processes. Comprehensive automation of enterprises. Systems of production monitoring and control. Processes control automation for their optimization and improvement of industrial safety.
- Complex Solutions Based on Various Measurement Technologies for Continuous Control of Off Gases, Dust Content and Velocities of Gas Flows

- Strategic questions of updating of park of process equipment and auxiliaries, practice of increase of efficiency of oil and gas enterprises.
- Highly effective auxiliaries - industrial fans, pumps, compressors, conveyors, the packing equipment etc.

INDUSTRIAL SAFETY, ANTICORROSION PROTECTION

- Issues of industrial safety of building structures and constructions.
- Modern methods of corrosion protection. Modern Russian and foreign anticorrosive coatings.
- Anticorrosion and Chemical Protection, Strengthening and Restoration of Engineering Services, Equipment and Storage Facilities at Enterprises of Oil and Gas Complex.
- Development and Introduction of Process Equipment, Gas Exhaust Channels and Gas Ducts from Chemically Resistant Polymer Materials.
- Emergency showers and fountains.

Provisional Conference Program:

24 November 2008, Monday
Starting from 12.00 – participants arrival, accommodation
25 November 2008, Tuesday
09.00 - 10.00 - Registration of Participants 10.00 - 18.00 - Official Opening of the Conference, Plenary Session 18.00 - 22.00 - Evening Moscow Bus Tour.
26 November 2008, Wednesday
09.30 - 17.00 - Conference Continued 17.00 - 18.00 - Conference Summarizing 18.00 - 21.00 - Banquet.
27 November 2008, Thursday
Participants Departure

There is a possibility to place an exhibition stand at the hall of the Conference.

THE VENUE

Izmailovo Hotel – a complex of the largest in Europe Tourist Hotel Compound "Izmailovo", consisting of 4 buildings. The Hotel is located in 50 meters from metro station "Partizanskaya" , in the greenest district of Moscow within a 5 minute walk from Recreation and Entertainment Park “Izmailovo”.

Well-developed infrastructure of the Hotel creates favorable conditions for combining business and rest. Restaurants with Russian, European, Oriental dishes are at the service of the Conference participants; billiards rooms, bowling, saunas, bars are open twenty-four hours. The Hotel offers various comfortable rooms: single, double, junior suits and suits, equipped with an allowance made for the up-to-date requirements to hotel interiors.

LOCATION MAP OF CONFERENCE VENUE:

Moscow, Izmailovskoye shosse, 71, metro station "Partizanskaya" (former "Izmailovskiy Park"). The Hotel Complex «Izmailovo» is located in 250 meters from metro station. The building is "Gamma-Delta".

The Conference will be held in halls on the 3rd floor of central lobby of the hotel "Gamma-Delta".

**CONDITIONS OF PARTICIPATION
IN THE CONFERENCE**

Registration fee:

For representatives of oil and gas industry	14 000 roubles
For reporters	22 000 roubles
For representatives institutes, engineering and other companies	16 000 roubles

Conference participation package includes:

- Attendance to all business events of the conference: plenary meeting, participation in work sessions, round-table discussions.
- Inclusion of reports and information on companies-participants into the conference catalogue.
- On the start of the Conference the participants receive the Conference participant pack: conference papers, conference brochure, conference catalogue and CD.
- Participation in welcome reception, social events and sightseeing.

Company participation in the Exhibition:

To place stand «Solo» with brief information about company	30 000 roubles
--	----------------

Conference sponsors and partners are offered special conditions and individual programs for company positioning during the conference.

Sponsorship rate — 90 000 roubles (or \$3600).

Sponsorship of the conference: « NEFTEGAZ–INTECHECO–2008» includes:

- Acknowledgement of Sponsor status.
- Speech (presentation of the sponsor’s company) on the conference (20-25 minutes) and during the Banquet in the second day of the conference.
- Corporate logo of the sponsor in the Conference brochure, CD and Conference Catalogue.
- One page A4 advertising in the conference brochure.
- Banner advertising or logo on www.intecheco.ru and www.neftegaz.intecheco.ru within 6 month.
- Exhibition stand of the company in the conference hall.
- Advertising materials of the company on the registration desk
- Participation in the conference of 2 company’s representative additionally.
- Sponsor’s advertising materials in the conference package for each participant.

INFORMATION FOR AUTHORS

CATALOGUE OF PARTICIPANTS, COLLECTION OF REPORTS and CD-ROM with presentations will be prepared before the Conference starts, so reporters and participants are requested to provide their reports and information on their companies in advance.

1. Please complete Conference Catalogue Form and send it and logo of your company by e-mail: admin@intecheco.ru not later than 15 November, 2008.
2. The texts of papers for publications in COLLECTION OF REPORTS should be prepared as Microsoft Word file and sent it and logo of your company by e-mail not later than 15 November, 2008.
The paper should contain:
 - Title of the paper
 - Names of the paper author(-s)
 - Company(-ies) of the paper author(-s)
 - Text of paper with illustrations (maximum – 4 pages of A4 size (approximately 10000 printed characters))
3. Demonstration materials for CD-ROM should be prepared as Microsoft PowerPoint presentation and sent by e-mail not later than 21 November, 2008.

Time for presentation of paper is about 20-25 minutes. The multimedia-projectors and projection screens for illustration materials demonstration will be provided for authors of papers and presentations. The authors should have the presentations on CD or Flash-Drive.

CONTACTS

For further information on the conference please contact:

Alexey Ermakov

phone: +7 (905) 567- 8767

fax: +7 (495) 737-7079

e-mail: admin@intecheco.ru

LOCATION OF CONFERENCE VENUE: Moscow, Izmailovskoye shosse, 71, metro station "Partizanskaya" (former "Izmailovskiy Park"). The Hotel Complex «Izmailovo» is located in 250 meters from metro station. The building is "Gamma-Delta". The Conference will be held in halls on the 3rd floor of central lobby of the hotel "Gamma-Delta".

For regular updates on the information about conference please visit www.ecolog.intecheco.ru

To be registered please send completed **registration form** by fax or e-mail. After your registration form is received, our invoice and agreement will be sent to you.
